

SMART CITY MISSION
MUNICIPAL CORPORATION OF GREATER MUMBAI

TENDER FOR INTEGRATED COMMAND AND CONTROL CENTER

With Smart Infrastructure and Urban Services

Tender No: MCGM/SC/ICCC/2025/1234
Estimated Cost: INR 478.50 Crore

SECTION 1: PROJECT OVERVIEW

1.1 This tender covers the design, development, implementation and maintenance of an Integrated Command and Control Center (ICCC) for the city, including smart street lighting with LED technology, intelligent traffic management system, environmental sensors network, and citizen grievance redressal platform.

SECTION 2: ENERGY AND SUSTAINABILITY

2.1 Smart Street Lighting: All street lights shall be replaced with LED luminaires with a minimum efficacy of 120 lumens/watt. The system shall include dimming controls to reduce energy consumption by 30% during off-peak hours (11 PM to 5 AM).

2.2 Solar Energy Integration: The ICCC building shall incorporate rooftop solar panels with a minimum capacity of 100 kWp. The building shall target IGBC Gold certification.

2.3 The data center cooling system shall achieve a Power Usage Effectiveness (PUE) of 1.5 or better.

2.4 Environmental Monitoring: A network of 50 environmental sensors shall be deployed across the city to monitor PM2.5, PM10, NO2, SO2, O3, temperature, and humidity in real-time. Data shall be publicly accessible through a citizen dashboard.

SECTION 3: E-WASTE AND LIFECYCLE

3.1 All IT equipment suppliers must provide EPR (Extended Producer Responsibility) certificates and commit to end-of-life take-back of all supplied hardware.

3.2 Equipment lifecycle shall be considered in bid evaluation with a minimum expected operational life of 7 years for all hardware components.

3.3 The Contractor shall provide a comprehensive e-waste management plan.

SECTION 4: BID EVALUATION CRITERIA

4.1 Technical evaluation (70%) shall include: Solution Architecture (25%), Implementation Plan (20%), Team Composition (15%), and Sustainability & Green Features (10%).

4.2 Financial evaluation shall carry 30% weightage based on lowest price methodology.

4.3 Bidders with ISO 14001 certification shall receive 2 additional marks in technical evaluation.
